SMOOTH & CLEAN ANTI-SLIP SURFACE

KeraTile ha desarrollado una nueva tecnología basada en nanoestructuras (**Nanotech**) para la fabricación de pavimentos con propiedades antideslizantes, dejando una superficie con textura suave y uniforme en la baldosa que no requiere cuidados adicionales, y evitando las texturas rugosas de los acabados convencionales antideslizantes.

KeraTile has developed a new nanostructure-based technology (**Nanotech**) for use in the manufacture of floor tiles with non-slip properties. The resulting tiles have a subtle uniform texture that requires no kind of additional care, avoiding the rough textures typical of conventional non-slip tiles.
