Custom Mix Mosaic

CREATE YOUR OWN PALETTE OF COLORS

ezarri gives you the chance to design your own mix of colors.

Check out the Mixtures Generator on our website and combine our colors any way you like.

The result? A mosaic that's perfect for you.

CREA TU PROPIA MEZCLA DE COLORES

En **ezarri**, te damos la oportunidad de que diseñes tu propia mezcla.

Visita el Generador de Mezclas de nuestra página web y combina nuestras referencias como quieras.

¿El resultado? El mosaico perfecto para ti.

CRÉER VOTRE PROPRE MÉLANGE DE COULEURS

ezarri vous offre la possibilité de créer votre propre mélange.

Visitez le Générateur de mélanges de notre site Web et combinez toutes nos couleurs au gré de vos envies.

Le résultat? La mosaïque parfaite pour vous.

Custom Printed Mosaic

CUSTOMISE YOUR PROJECT WITH THE IMAGE OF YOUR CHOICE

Imagine your most original design come to life with custom creations in printed mosaic. It's as easy as sending us the image you want to use for your project, and Ezarri will make it in mosaic.

It can be a design, a drawing, a photo, etc. Just send us the image and we will make it in mosaic.

The results are exclusive projects tailored to the customer's taste.

PERSONALIZA TU PROYECTO CON LA IMAGEN QUE PREFIERAS

Tu diseño más original hecho realidad. Creaciones a medida en mosaico impreso. Tan sencillo como enviarnos la imagen con la que quieras personalizar tu proyecto y en Ezarri la plasmaremos sobre el mosaico.

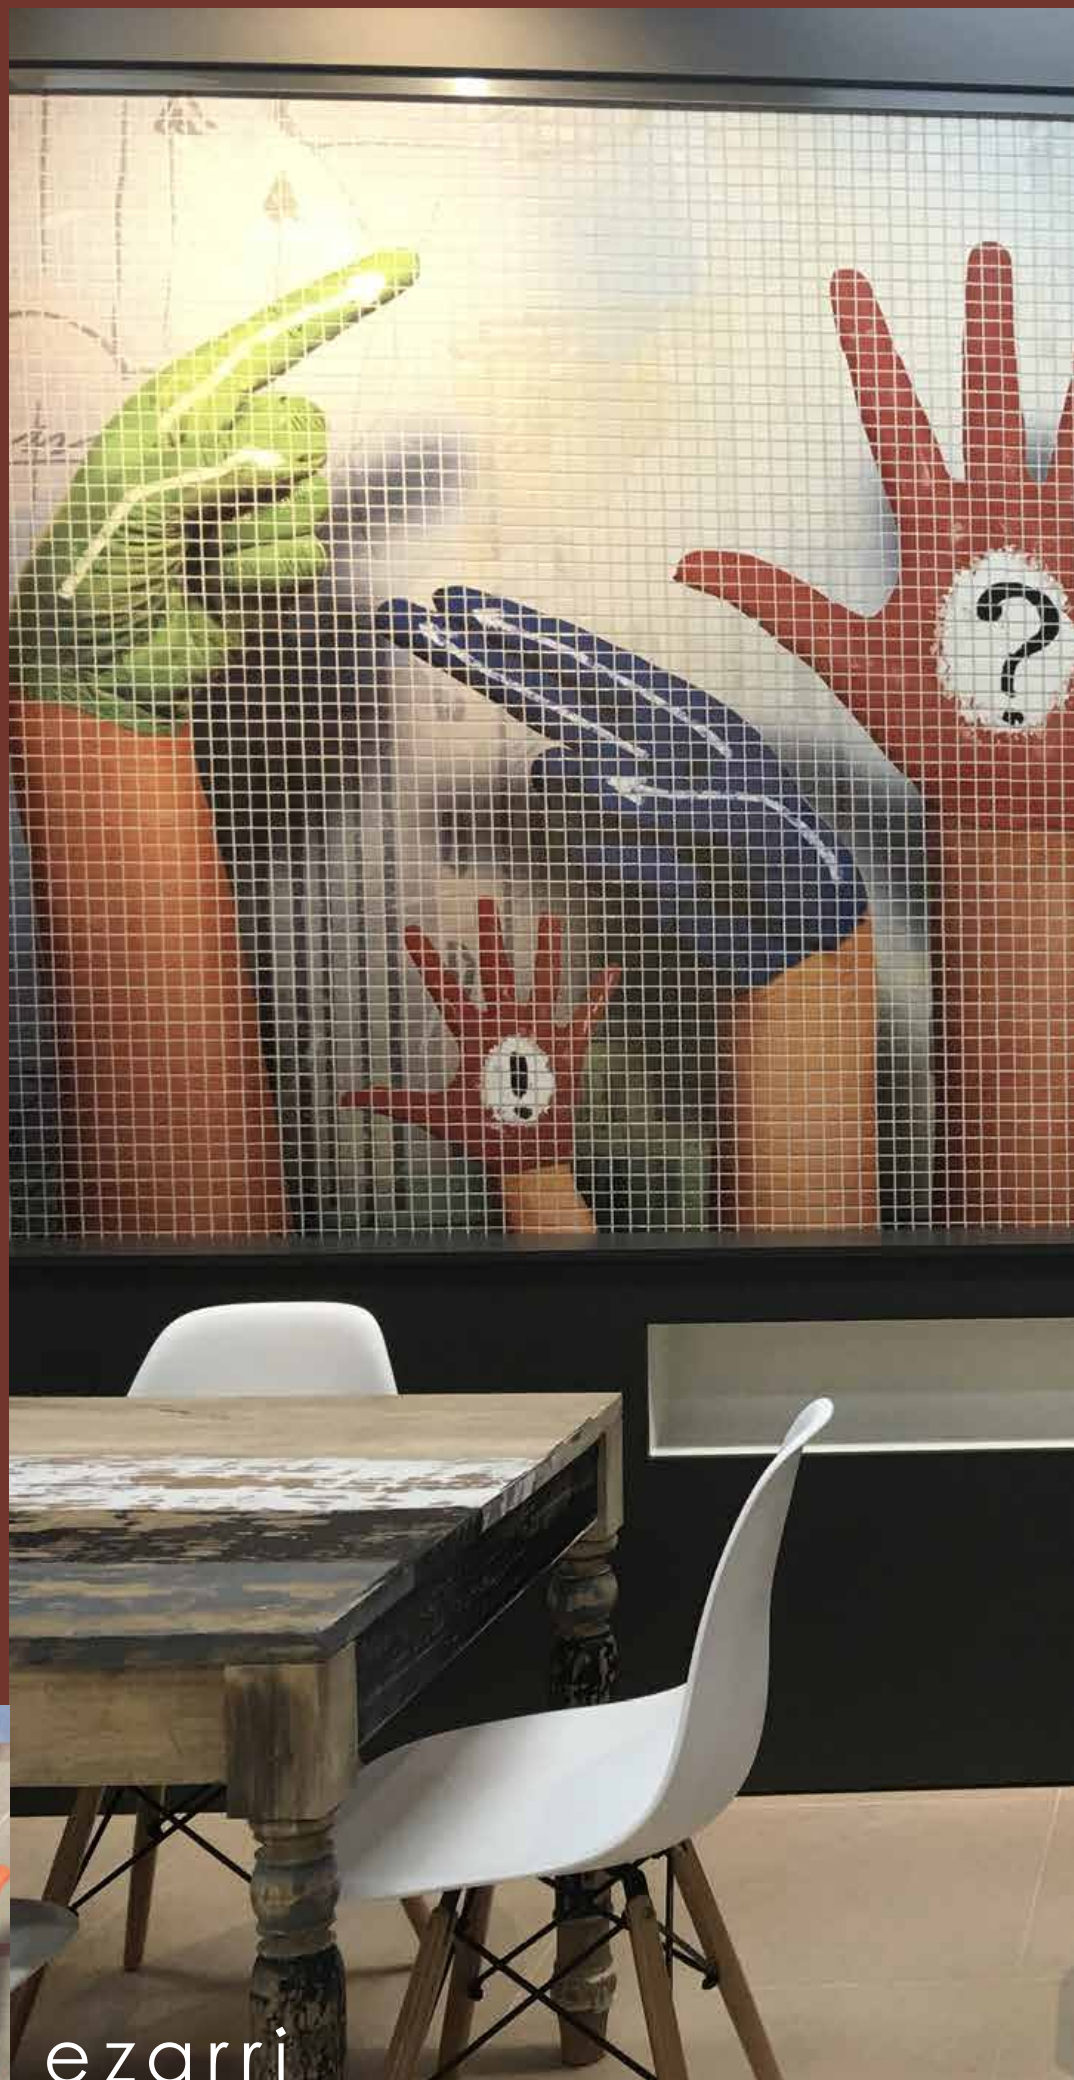

Un diseño, un dibujo, una foto... Nos envías la imagen y nosotros la plasmaremos sobre el mosaico.

El resultado son proyectos exclusivos al gusto del cliente.

PERSONNALISEZ VOTRE PROJET AVEC VOTRE IMAGE PRÉFÉRÉE

Votre conception la plus originale devient réalité avec des créations sur mesure en mosaïque imprimée. Il vous suffit de nous envoyer l'image avec laquelle vous souhaitez personnaliser votre projet et, chez Ezarri, nous la transformerons en mosaïque.

Une conception, un dessin, une photographie... Envoyez-nous votre image et nous en ferons une mosaïque afin de vous offrir des solutions exclusives qui sont à votre goût.

Custom Pixel Mosaic

DECORATE WITH IMAGES CREATED IN MOSAIC

We can use an image to create a custom design in which each mosaic tile is a pixel. At Ezarri we create a mosaic design of the image that you want to use as decoration.

It's a good way to personalise your projects, perfect for simple images, repetitive patterns, and geometric shapes. Mosaics make the most sense with these images edited at the pixel level, and the result is known as PIXEL ART. A major benefit is the possibility to mix multiple mosaic finishes and textures: pearly, solid-coloured, metallic, etc. This ensures a fantastic result.

Custom decorations for those who love mosaics.

DECORA CON IMÁGENES CREADAS EN MOSAICO

Desde una imagen podemos crear una propuesta a medida donde cada ficha de mosaico es un pixel. En Ezarri nos encargamos de crear una propuesta en mosaico de la imagen que se quiera utilizar como decoración.

Es un modo de personalizar los proyectos, indicado para imágenes sencillas, patrones repetitivos o formas geométricas. El mosaico cobra su máximo sentido con estas imágenes editadas a nivel de pixel y sus resultados se consideran PIXEL ART. Su mayor ventaja es la posibilidad de mezclar múltiples acabados y texturas de mosaico: nacarados, lisos, metalizados... lo cual ofrece un resultado fantástico.

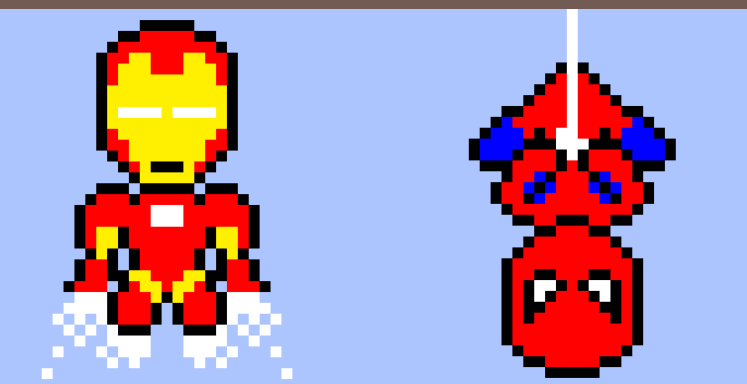

Decoraciones a medida para los amantes del mosaico.

DÉCOREZ AVEC DES IMAGES CRÉÉES EN MOSAÏQUE

À partir d'une image, nous pouvons vous proposer une solution personnalisée où chaque carré de mosaïque représente un pixel. Chez Ezarri, nous nous occupons de créer une proposition de mosaïque à partir de l'image que vous souhaitez utiliser en tant que décoration.

Cette méthode de personnalisation des projets est idéale pour des images simples, des motifs répétitifs ou des formes géométriques. La mosaïque prend tout son sens avec ces images éditées à l'échelle du pixel, et les résultats sont considérés comme des PIXEL ART. Son plus grand avantage est qu'elle permet de mélanger plusieurs finitions et textures de mosaïque (nacré, lisse, métallique, etc.) afin d'obtenir un résultat fantastique.

Des décorations personnalisées pour les amateurs de mosaïque.

Resistant to moisture

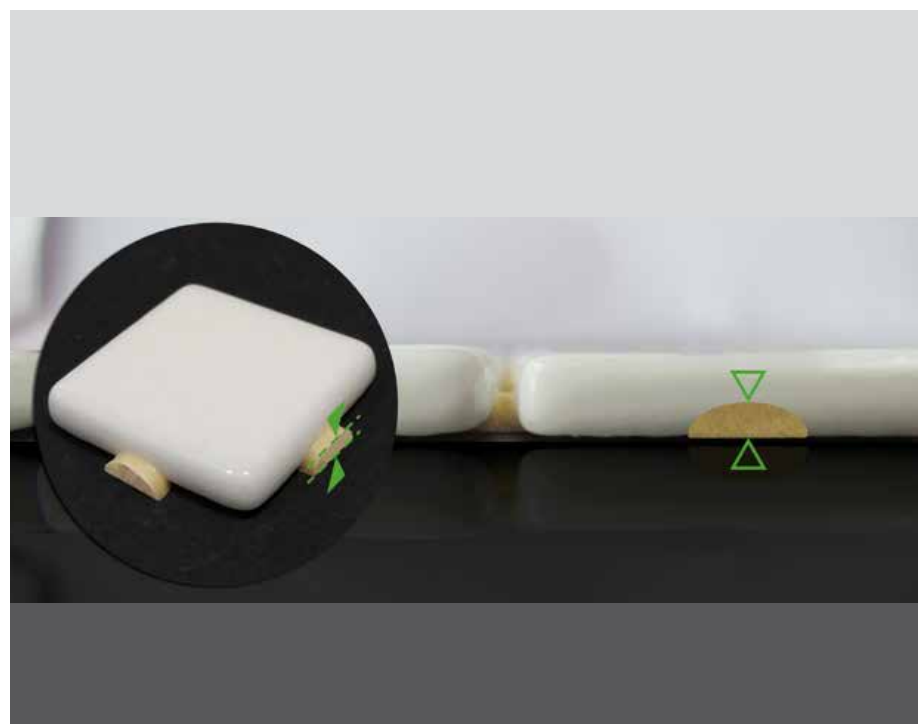

Does not expand or contract like mesh or paper-based panelling systems.

No tiene dilataciones ni contracciones ni roturas como los sistemas de empanelado en malla o papel.

Pas de dilatations, de contractions, ni de déchirures comme avec les systèmes d'assemblage sur trame nylon ou sur papier.

The smallest, most uniform and controlled point

Système exclusif JointPoint®, tout un monde d'avantages.

JointPoint® est un système de fixation des mosaïques novateur et exclusif développé par **ezarri**, qui garantit une installation simple, parfaite et homogène des mosaïques.

Le système JointPoint® est flexible et facile à découper. Cette technique a été créée exclusivement afin de fournir une multitude d'avantages à l'installateur et d'offrir des résultats spectaculaires lors de la finition des projets.

Surface d'adhérence maximale

Simple à poser

Résistant à l'humidité

Le point le plus petit, homogène et contrôlé

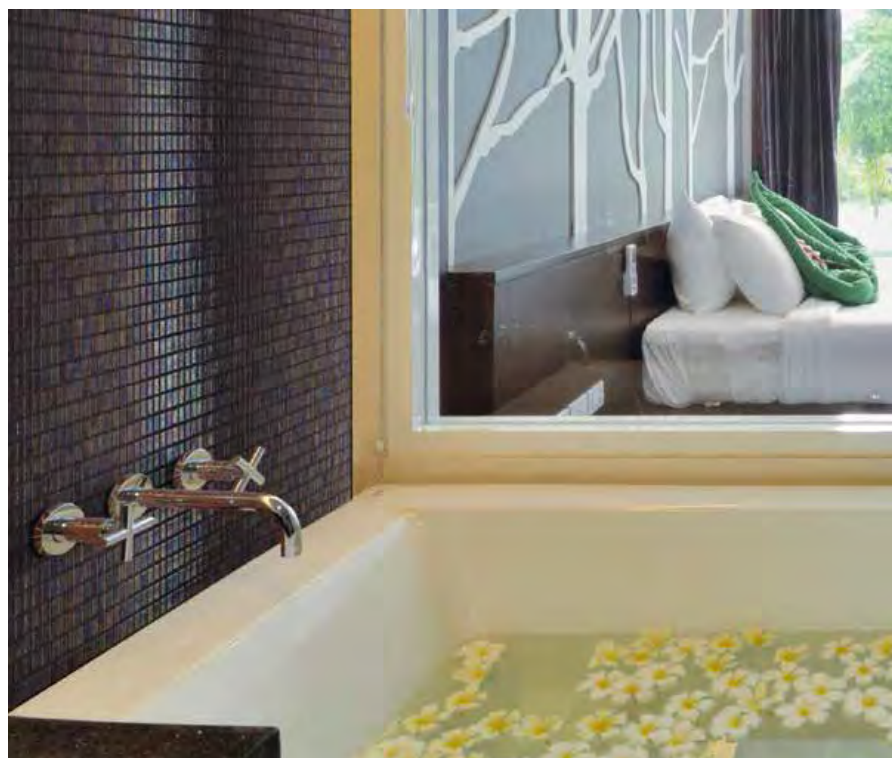

ezarri, an Eco-Friendly company.

Our commitment to sustainability is reflected in each and every one of our projects, from start to finish. That is why absolutely all the glass used by ezarri is 100% recycled.

Our responsibility to protect the environment has motivated us to work to obtain three certifications that accredit our respect and care for the planet. This commitment to nature is a key criteria for ezarri and one of the essential elements of the company's philosophy.

Over 96% of the end product
is from recycled glass

ezarri, an Eco-Friendly company.

Nuestro compromiso por la sostenibilidad queda reflejado en todos y cada uno de nuestros proyectos, desde su inicio hasta su fin. Por eso, absolutamente todo el vidrio utilizado por **ezarri** es 100% reciclado.

Nuestra responsabilidad por el cuidado del entorno nos ha llevado a trabajar hasta alcanzar tres certificaciones que acreditan nuestro respeto y cuidado del planeta. Este pacto con la naturaleza es un criterio clave de **ezarri**, tanto es así, que es uno de los puntos destacados de la filosofía de empresa.

Installation · Instalación · Installation

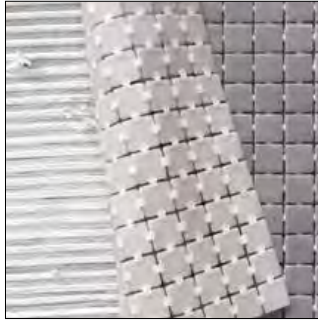

1.

Extender el adhesivo con una llana dentada de 6mm de manera homogénea.

Spread the adhesive in a uniform manner using a 6mm notched trowel.

Étendre l'adhésif de façon homogène avec une truelle dentée de 6mm.

2.

Colocar los paneles con el sistema de puntos **JointPoint®** y aplicarlos sobre la superficie.

Position the panels with the **JointPoint®** system and apply to the surface.

Placer les panneaux avec le système de points **JointPoint®** et les appliquer sur la surface.

4.

Aplicar la junta con la llana de goma blanda, quitando el exceso de pasta.

Apply the grouting mortar using the soft rubber trowel, removing any excess paste.

Appliquer le joint avec la truelle en caoutchouc mou, puis retirer ensuite les restes de pâte.

3.

Corregir la alineación de los paneles con una llana de goma.

Correct the alignment of the panels using a rubber trowel.

Corriger l'alignement des panneaux avec une truelle en caoutchouc.

5.

Limpiar el mosaico con agua con la ayuda de una llana con esponja.

Clean the mosaic using water and a sponge trowel.

Nettoyer la mosaïque avec de l'eau à l'aide d'une truelle munie d'une éponge.

6.

Finalmente limpiar con un finalizador de obra.

Lastly, clean using a finishing product.

Finalement, nettoyer avec un finisseur.

Preparing the support. The support should be a smooth, even surface which should be clean, stable and have a level of surface moisture below 3%.

Choosing the most appropriate adhesive: For concrete surfaces, **ezarri** recommends using an adhesive with at least C2TE specifications for concrete surfaces. For other surfaces, please seek advice.

Choosing the most appropriate grouting mortar: At **ezarri** we recommend the use of RG-type epoxy grouting mortars.

For a more detailed explanation of the installation process, please check our website (www.ezarri.com), where you will find a file detailing all the steps to be followed and products to be used.

ezarri has an **Installation Customer Service** to answer any questions about which bonding and grout materials to use, tools, and where to get recommendations for optimal installation.

Preparación del soporte: El soporte debe ser una superficie lisa y sin imperfecciones y además debe estar limpio, estable y tener un grado de humedad inferior al 3%.

Elección del adhesivo más adecuado: **ezarri** recomienda la utilización de un adhesivo con características mínimas C2TE, para superficies de hormigón. Para otras superficies se ruega consultar.

Elección de la junta más adecuada: En **ezarri** recomendamos la utilización de juntas epóxicas tipo RG.

Para tener una explicación mas exhaustiva del proceso de instalación puede dirigirse a nuestra página web (www.ezarri.com), donde encontrará un dossier con todos los pasos a realizar y productos a utilizar.

ezarri dispone de un **Servicio de Atención para la Colocación**, en el que poder resolver cualquier tipo de duda respecto a qué materiales de agarre y junta utilizar, sobre herramientas y donde poder obtener recomendaciones para una óptima colocación.

Préparation du support: Le support doit présenter une surface lisse et sans imperfections. Il doit également être propre, stable et contenir un degré d'humidité inférieure à 3%.

Choix de l'adhésif correct.: **ezarri** conseille d'utiliser un adhésif avec des caractéristiques minimales C2TE pour des surfaces en béton. Pour d'autres surfaces, veuillez nous contacter.

Choix du joint correct: Chez **ezarri**, nous conseillons d'utiliser des joints époxy du type RG.

Si vous souhaitez recevoir davantage d'information concernant la séquence d'installation, vous pouvez visiter notre site (www.ezarri.com), où vous trouverez un dossier avec tous les pas à suivre et les produits à utiliser.

ezarri dispose d'un **service d'assistance** pour la pose qui est capable de résoudre tout type de doute concernant les matériaux de fixation, les joints et les outils à utiliser, et qui offre également des recommandations pour une pose optimale.

JUNTAS EPOXY

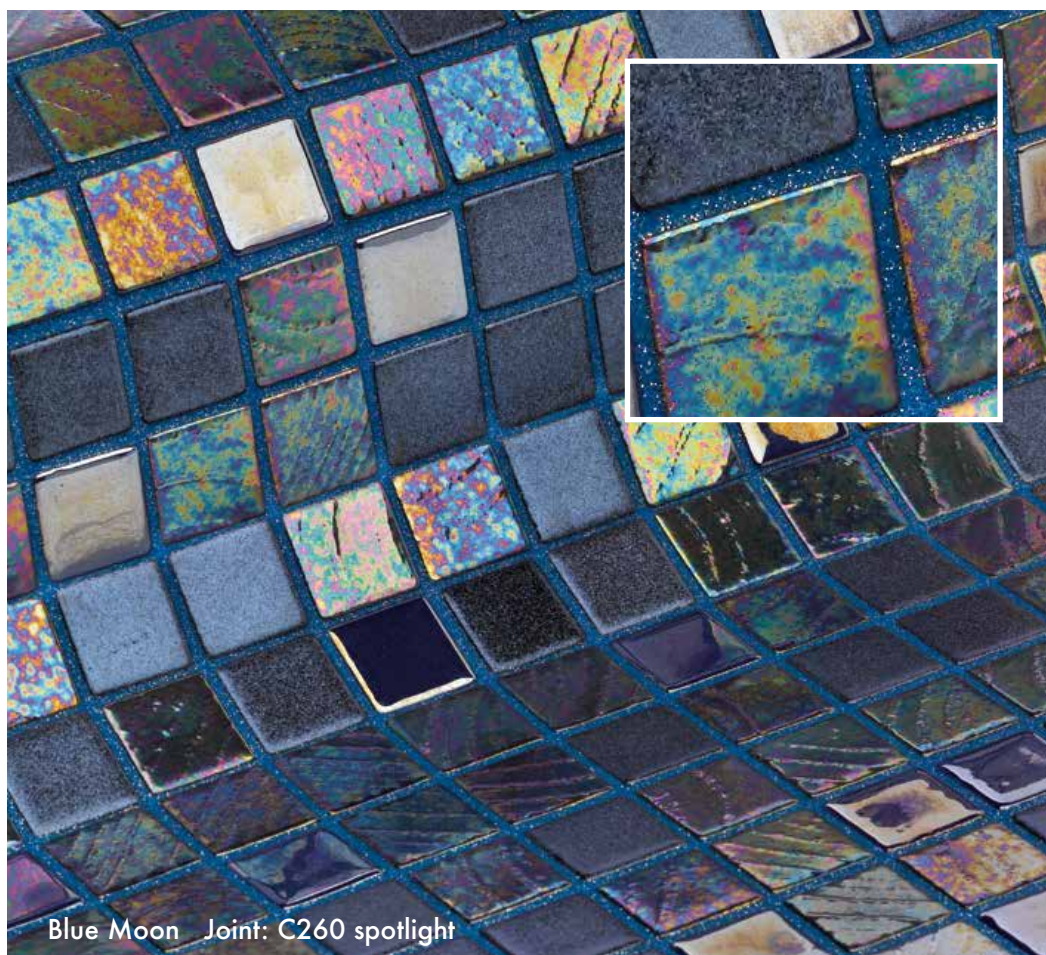

EPOXY JOINTS

JOINTS ÉPOXY

ezarri considers joints to be an essential element within its colorful designs. The aesthetic component of the joint used is very important and when combined with the **ezarri** mosaic tile ranges can give surprising results. By combining different colored tiles and joints we have been able to develop a new range of color schemes to offer our clients.

ezarri hace de las juntas un elemento esencial en sus propuesta de colorido. El componente estético de las juntas es importantísimo y conjugándolo con las colecciones de mosaico **ezarri**, dan unos resultados sorprendentes. La combinación de colores entre mosaico y junta nos ha permitido desarrollar una propuesta cromática que ponemos a disposición de nuestros clientes.

Pour **ezarri**, les joints sont un élément essentiel dans ses propositions de coloris. Le composant esthétique des joints est déterminant et leur mélange avec les collections de mosaïque **ezarri** fournit des résultats réellement surprenants. La combinaison des couleurs de la mosaïque et du joint nous a permis de développer une offre chromatique que nous mettons à la disposition de nos clients.

Blue Moon Joint: C260 spotlight

In technical terms, **ezarri** recommends the use of epoxy joints mortars. Apart from offering a wide range of colors and effects, such joints have excellent technical specifications; they are damp-resistant, water-repellant and have great durability. Moreover, this type of joint does not absorb stains, offering total cleanliness and hygiene.

The use of epoxy joints is linked to the use of specific tools and finishing products, both of which are also supplied by **ezarri**. We recommend you use these specific tools and products in order to ensure a perfect finish and results.

Técnicamente hablando, **ezarri** aconseja la utilización de juntas epóxicas. Además de contar con una amplia gama de colores y efectos, estas juntas tienen unas características técnicas excelentes; son insensibles a la humedad, repelen el agua y ofrecen una gran durabilidad. Además, las manchas no penetran en la junta por lo que la limpieza e higiene son totales.

La utilización de juntas epóxicas va vinculada a la utilización tanto de herramientas específicas, como de productos de finalización de obra. Ambos son suministrados también por **ezarri**. Recomendamos la utilización de estas herramientas y productos específicos para que la finalización y el resultado de la obra sean los idóneos.

D'un point de vue technique, **ezarri** recommande d'utiliser des joints époxy. Leur gamme de couleurs et d'effets est très large et ils possèdent d'excellentes caractéristiques techniques : ils sont insensibles à l'humidité, repoussent l'eau et fournissent une grande durabilité. D'autre part, les taches ne pénètrent pas dans le joint, ce qui permet un nettoyage et une hygiène absolument parfaits.

La mise en place de joints époxy implique l'utilisation d'outils spécifiques et de produits finisseurs. L'ensemble est fourni par **ezarri**. Nous conseillons vivement d'utiliser tous ces éléments pour que les finitions et le résultat de l'ouvrage soient optimaux.
